# Ring Size Guide <br> (Measure with an Existing Ring) 

## Step 1

Print this document on A4 paper at $100 \%$ scale (or actual size). Check that page scaling is set to 'none' in the printing dialog box. Measure the line below to determine the printed size. It should be exactly 3 cm (1.18") in length.

Step 2
Place the ring that fits you or the person for whom it is intended over the circles below using an existing ring.

## Step 3

Check that the inside of the ring matches the outside of the circle. If you're in between sizes, go with the larger size.

If you cannot find the ring size that fits you, please contact us. We can make you a custom ring size.
