

# Bracelet Size Guide

## Step 1

Print this document on A4 paper at 100% scale (or actual size). Check that page scaling is set to 'none' in the printing dialog box. Measure the line below to determine the printed size. It should be exactly 3cm (1.18") in length.

**3 cm - 1.18"**

## Step 2

Cut out the wrist sizer on your left (make sure the slit at the base of the wrist sizer is open) or wrap a non-stretchy string around your wrist (tight and precise). Measure the length of the string or paper sizer where it begins to overlap to form a complete circle.

## Step 3

Check the AMBER-WIND bracelet size chart for your size. Take note of the bracelet style. There are different sizing guides depending on whether the bracelet is flexible or rigid.
